SPARKLING WATERS

The best views of cottage country are from the decks of a Muskoka cruise boat or from your dock as antique boats and skiers fly by. Step aboard North America's oldest operating mail steamship, the RMS Segwun, her fleet sister the Wenonah II and revived Wanda III from the Gravenhurst Wharf. Sunset Cruises provides an intimate journey on the Peerless II (celebrating its 80th birthday this year!) at the Port Carling Locks, while Muskoka Cruises offers scenic adventures on Muskoka River from Bracebridge and the Lady Rosseau from Port Carling.

TOPSIDE TRICKS

Feel the excitement at high-energy ski shows in Bala by Summer Water Sports (SWS) and in Gravenhurst by Muskoka Extreme. These watersport pros, along with SOAR, Jetsurf Canada, Muskoka Wake and Create Your Wave, offer lessons, camps and demos to help you build your skills on the water.

Slipping away in an antique boat. A classic moment on Lake Rosseau

SUMMER SOUNDS • Catch unforgettable performances at the historic Kee to Bala, a renowned venue hosting top artists every weekend. Enjoy diverse musical offerings at Muskoka's restaurants, beer gardens, coffeehouses, the Muskoka Lakes Farm and Winery and local Legions, which feature talented artists and tribute bands throughout the year. The Muskoka Chautauqua Summer Festival in Windermere blends music, art and culture.

YEAR-ROUND FESTIVITIES

For over 40 years, the Bala Cranberry Festival attracts people from near and far and Oktoberfest Muskoka promises vibrant celebrations of art, music, and local flavour. In February, wintry fun rules at the Port Carling Winterfest.

ATTRACTIONS

FOR KIDS OF ALL AGES

There's a reason why Santa makes Muskoka his summer home: it's fun at Santa's Village! Check out the mini putt there or at nearby Northern Escapades and the entire family can tackle Ozzy's Golf Range (dog friendly too). For those wanting 9-or-18 holes, we're home to beautifully designed golf courses in many corners of Muskoka Lakes.

KEEPING WILDLIFE WILD

Take a guided tour at Aspen Valley Wildlife Sanctuary, which supports the rehabilitation of hundreds of animals. Meet permanent residents, including moose, bears, wolves, coyotes, a bobcat, and a lynx, while contributing to their care and preservation.

A SIGNATURE EXPERIENCE

Muskoka Lakes Farm and Winery is home to Johnston's Cranberry Marsh. Year-round, visitors can hike, snowshoe, ski, or skate through cranberry-filled landscapes. On select Sundays, sip their wines and spritzers while listening to local musicians. Learn about farming history and enjoy award-winning cranberry wines in this quintessential Canadian destination.

ESSENTIAL HIKES • *Muskoka's trails offer a variety of landscapes to explore. Venture to Torrance Barrens, the world's first dark sky preserve to experience ridges formed two billion plus years ago.*

Hardy Lake's lakeside trails are perfect for a leafy walk, while Walker's Point Lookout provides a gradual climb with rewarding views. Huckleberry Rock lookout is a must-stop at the north end of Lake Muskoka. For quieter adventures, explore Weir Lake Trail near Bent River or Skeleton Lake Trail, where waterfalls await.

Torrance Barrens NIGHT SKY PRESERVE

In many places, the night sky has faded under artificial light. Not here. At the Torrance Barrens, protected skies reveal stars, planets and the Milky Way with striking clarity.

Set on ancient rock with wide open views, the world-renowned Barrens offer some of the best stargazing anywhere. On clear nights, you may even spot the Andromeda Galaxy. Marked viewing areas are open to visitors. Take a moment to look up. You won't forget it.

Plumbing, Electrical, HVAC +

Experienced multi-trade specialization across plumbing, heating, and electrical means fewer contractors for the homeowner or project manager to coordinate. This collaboration among primary systems results in a more cohesive and efficient property, project, and job site.

At Stevenson's, our trifecta of services ensures that a property's three vital systems work in harmony. This integrated approach prevents "trade silos," which can create inefficiencies during construction and challenges down the road for homeowners.

Our job is to make your life easier.

Warm Up In The Garden:

Muskoka's Plant Zone Has Shifted.

LET'S BREAK DOWN WHAT THIS MEANS FOR GARDENERS.

New maps now place much of Muskoka in plant hardiness Zone 5, meaning plants deemed “too tender” for our region before can now survive, and in some cases thrive, year after year. In the past, Muskoka was in Zone 4. The shift comes from warmer winter lows over the last 30 years. Still, we experience extreme weather events in Muskoka and there are risks.

Mophead Hydrangeas (shown below) used to struggle in colder zones because they often bloom on old wood (buds formed the year before). If winter killed those buds, no flowers. Now they are surviving more reliably with climate shift.

Fun-fact: Florists love Mopheads because the blooms can last weeks in water or dry beautifully.

Why has the zone changed?

- Winter lows in central Ontario are about 1–2°C warmer than decades ago.
- Traditionally long deep freezes do not last as long.
- Cold snaps still happen, but tend to be shorter.
- New maps also use better weather data and more local detail.

What gardeners can try now

A warmer zone opens the door to more plant choice.

- Some hydrangeas that once struggled may now grow well.
- Japanese maples may survive in the right spot.
- Some magnolias and less hardy plants may work.
- Veg and herb gardens may have a longer grow season.
- Spring bloom may start a bit earlier.

Still, Muskoka has its own risks

- Late frost in May or early June can still hit.
- Cold snaps in fall can come fast.
- Rural sites and low spots may stay colder.
- Wind and rock soil can stress plants.

Lake effect matters

Homes near large lakes often have milder spots.

- Water holds heat and slows temp swings.
- South shore sites may feel closer to Zone 5b.
- Inland spots may still act like Zone 4 or 5a.

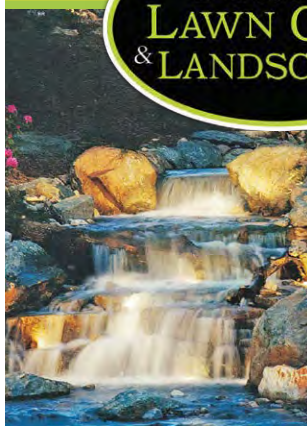

Smart plant picks still matter.

Muskoka gardens have more choice than before and try new plants if you wish. Just keep mulch, shelter, and frost care in mind and never forget the gardening golden rule here: native plants are best: no invasive or exotic imports!
